

PITCH DECK 2026

Arknote - Intelligent Document Processing (IDP)

Transform "Dark Data" into structured knowledge, optimize search and extraction processes, and massively boost workplace productivity.

Core Problems & Pain Points

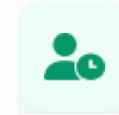

80% "Dark Data"

Users possess massive digital archives but struggle to access them. Current tools manage "files" rather than the "information" inside.

Student Pain Points

Wasting hours just to find a definition or formula in old slides, leading to frustrating knowledge gaps and poor revision efficiency.

Employee Pain Points (HR/Admin)

Wasting 20-30% of daily working hours just searching and re-typing data. Causes burnout, manual errors, and legal risks.

Value Proposition & Innovation

Smart Filter Transforms chaotic text into highly structured, ready-to-use data instantly.

Semantic Understanding Replaces outdated keyword search with deep semantic comprehension.

✓ **Smart OCR AI** Unlike traditional OCR: Automatically recognizes, filters essential info, and removes junk data.

✓ **Maximum Security** Secure document management, legal compliance, fully overcoming privacy weaknesses of public AI.

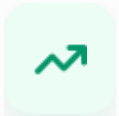

Quantified Benefits

Reduce Waste

Solves the issue of searching old documents taking 1-15 mins for 67% of users. Directly cuts **20-30% of wasted time**.

Boost Productivity

Improves overall productivity by **20% to 25%**, optimizes information gathering, accelerates business decision-making.

IDP Market Size

91B\$

GLOBAL FORECAST (2034)

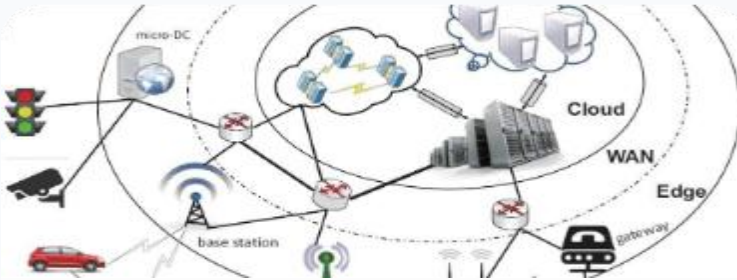

Explosive Global Growth

The IDP market reached \$10.57B (2025) and is booming with a **26.2% CAGR**. (Source: *Fortune Business Insights*)

Potential in Vietnam

Domestic Edtech is projected to hit \$1.1B (2025). With the digital economy contributing 14.02% to GDP, Vietnam is a perfect launchpad. (Source: *IMARC Group*)

3 Market-Shaping Trends

Cloud & Edge AI

Strong shift to the Cloud (CAGR 35.9%) and application of Edge AI for on-device processing to minimize latency. *(Grand View Horizon)*

"File Blindness"

Gen Z is unfamiliar with traditional folder structures, prioritizing visual search via tags or images.

Dark Data

Over 55% of stored data is never used or found, creating a critical demand for automated tagging systems. *(Splunk)*

Primary Market Data

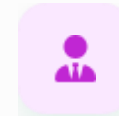

User Demand (Primary)

A survey of 134-135 users shows the majority highly desire exam document summarization and deep semantic search.

Willingness to Pay

High willingness to upgrade to paid plans with a common expected price of **79,000 VND/month**, proving Arknote's practical value.

Expert Insights

Admin and import/export experts heavily emphasize the need for accurate automated data extraction and contract deadline tracking.

Competitive Analysis

Core Feature / Platform	Arknote (Our Solution)	Adobe Scan / MS Lens	CamScanner	Notion AI	Drive / Dropbox
AI Knowledge Organization	✔ Comprehensive	✖ Scan only	✖ Scan only	✔ Good	✖ Storage only
Semantic Search	✔ AI Semantic	✖ No	✖ No	⚡ Keyword	⚡ Keyword
Smart OCR Filtering	✔ Smart filter	✔ Extracts all	✔ Extracts all	✖ Poor on Mobile	✖ Not supported
Optimized UI for Learning	✔ Flashcards	✖ No	✖ Ads heavy	✖ Hard to use	✖ No

GO-TO-MARKET

Target Customers

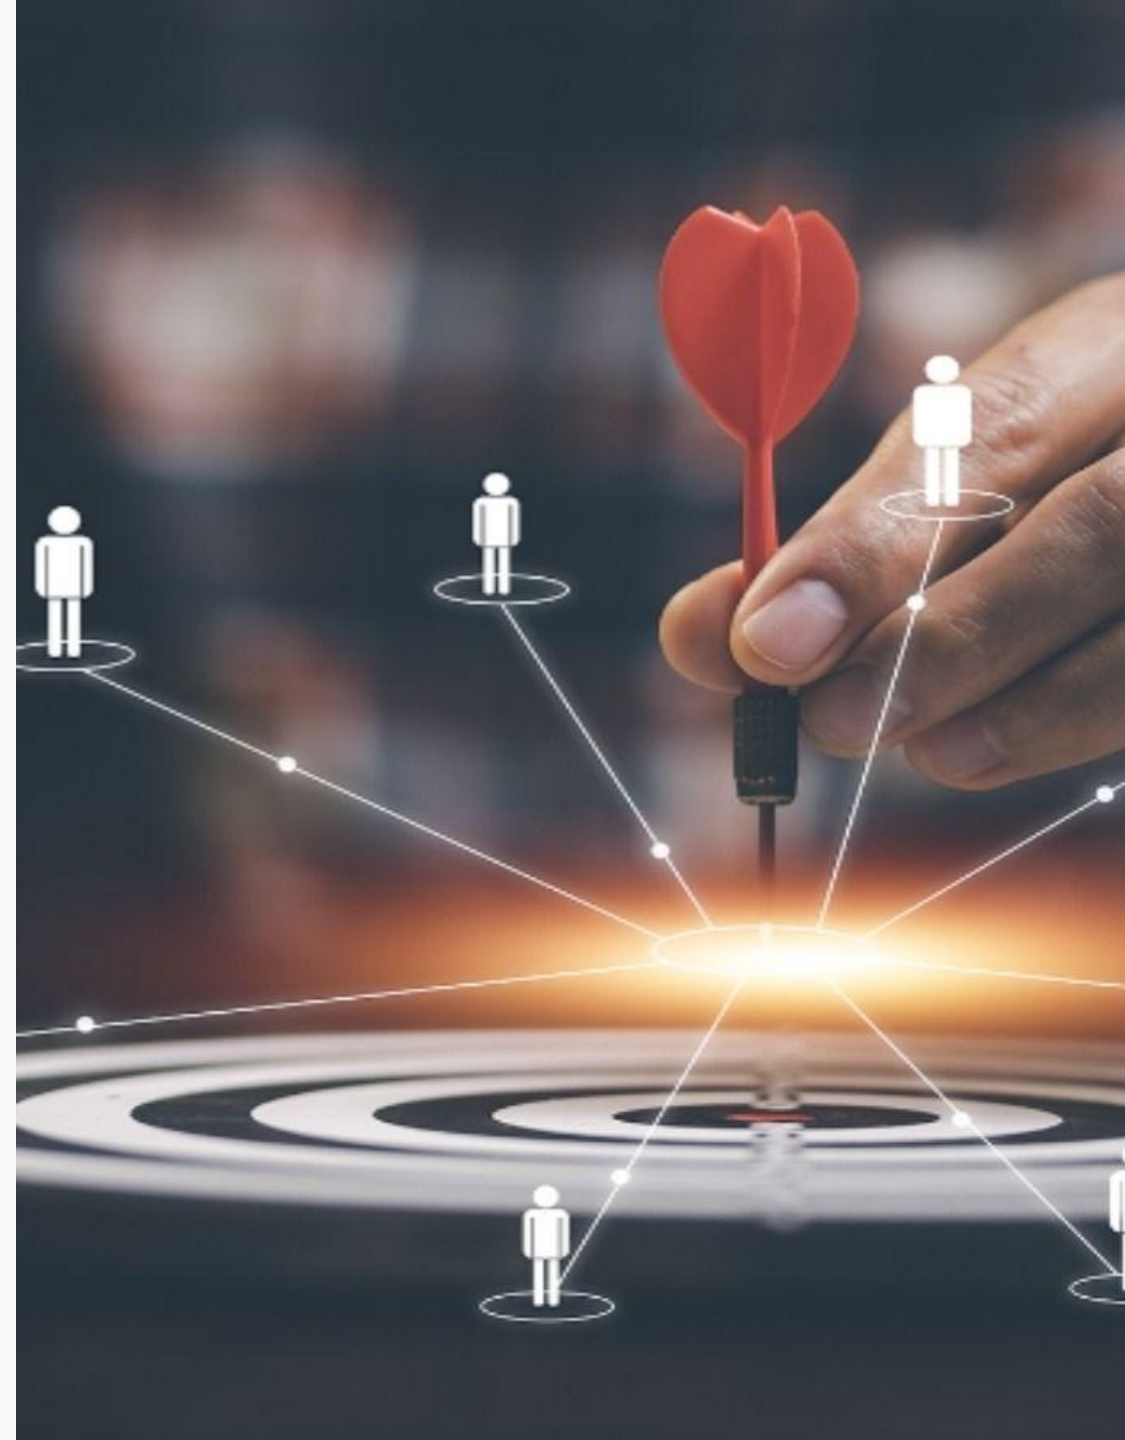

University Students (Core)

Huge demand for digitizing lecture slides and needing AI for quick, accurate exam knowledge summaries.

HR / Admin Staff (Sub)

Admin staff in SMEs needing tools to reduce manual data entry and track structured data.

Expansion Strategy: IDP software market. From the core of Vietnam straight to Southeast Asia and globally.

Team, Business Model & Operations

Core Team

6 Core Members:

- 2 IT (AI & Product Dev)
- 1 Marketing
- 1 Finance
- 1 Operations
- 1 Business Development

Revenue Model

B2C (Initial Phase):

- Pro: 79,000 VND/month
- Premium: 125,000 VND/month
- Ads: Applied for Free accounts

B2B (From 2027): Packages for language centers, SMEs.

Operations & Costs

Total 18-month Cost: ~150M VND

Budget: 47% Marketing, 39% Tech (AI/Server), 14% Operations.

USP Focus: Knowledge Map, Smart OCR, Flashcards & Reminders, UI Personalization.

Development Roadmap (12 - 18 Months)

Phase 1: Build & Test

2024 - 2025

- Develop MVP (AI summary, Q&A).
- Alpha/Beta testing with students.
- **Result:** Perfect product, clearly define market needs.

Phase 2: Launch & Validate

2026

- Launch Freemium, push Marketing.
- Improve Knowledge Map & UX.
- **Result:** Reach 1k-3k users, generate B2C revenue, achieve Product-Market Fit.

Phase 3: Scale & Optimize

Late 2026 - Mid 2027

- Upgrade AI (OCR, Multi-language).
- Add Flashcards, Reminders.
- **Result:** User growth, stable revenue, ready for B2B expansion.

Expansion Plan (2027 - 2030)

2027: B2B Launch

B2C: Increase conversion, expand user base.

B2B: Deploy for education centers & study groups.

Initial Profitability

2028: Scale

B2C: Nationwide expansion, increase retention rate.

B2B: Expand client base + Provide management Dashboard.

Rapid Revenue Growth

2029: Regional

B2C: Enter Southeast Asia, multi-language support.

B2B: Approach regional educational institutions.

Revenue > 1 Billion VND

2030: Optimize & Grow

B2C: Optimize paid user conversion rate.

B2B: Sign long-term Enterprise contracts.

Revenue ~2.7 Billion VND

Financial Projections (2026 - 2030)

5-Year Overview

TOTAL REVENUE

4.87B VND

TOTAL COST

1.40B VND

Strategy: Start with B2C in 2026. Strong growth in 2027 driven by B2C + B2B. Explosive growth from 2028-2030 by scaling users. Costs (Tech, MKT, Ops) increase but at a slower rate than revenue.

Year	Revenue (VND)	Cost (VND)
2026	59,348,000	88,326,800
2027	220,110,000	121,596,000
2028	606,001,000	206,808,200
2029	1,222,000,000	334,904,000
2030	2,769,500,000	649,300,000

Financial plan

Fundraising Plan

The Ask

100,000,000 VND

For 10% Equity

Company Valuation: 1,000,000,000 VND (1 Billion VND)

Use of Proceeds:

- Product Development (AI, System)
- Marketing (User Acquisition)
- Infrastructure (Servers, Operations)

Cap Table

Total Operating Capital (First 18 Months): 160,000,000 VND

Member / Investor	Equity	Amount (VND)
Dang Nhat Hoang	15%	10,000,000
Pham Minh Tri	15%	10,000,000
Nguyen Hoang Bao Tran	15%	10,000,000
Nguyen Sy Hai Dang	15%	10,000,000
Tran Quang Hieu	15%	10,000,000
Vuong Hoai Bao	15%	10,000,000
Expected Investor	10%	100,000,000
